March 2023 Newsletter

" Reaching for the Top"

Pre Registration 2023-2024

For new inquiring families looking to enroll with EPA, we do have spots available for the 2023-2024 school year. Please fill out our application form via our website to get the process started.

For already enrolled EPA families, please have your pre registration form handed into the office by March 31, 2023 at the latest.

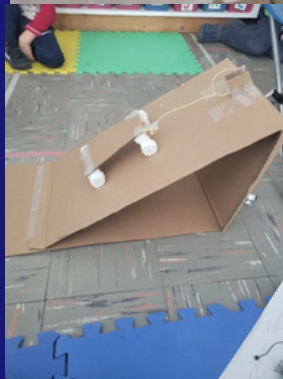

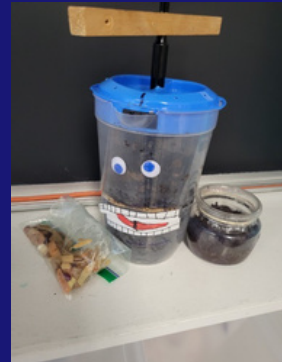

Thank you!

Please email office administration if you have any questions:

This Week In Primary Classroom..

After completing a science unit on Simple Machines, students were asked to design and build an invention using at least one of the simple machines learned in class (lever, pulley, screw, inclined plane, wedge, wheel and axle). Their invention needed to help us in the future, and if it had a simple machine that moved (a pulley for example) it had to work when they gave their presentation.

Please see a few pictures below from our creative students!

Upcoming Holidays (No School)

April 7th & April 10th
